

Discover the Beauty

BLACK STAINLESS STEEL

BEZDAN
SINCE 1960

Black Beauty

Black stainless components achieve an ultra-modern look for frameless glass and baluster railings while retaining the benefits of high durability, scratch resistance, and strength of classic stainless steel.

Discover the benefits the eye-catching and lasting beauty of black stainless components achieve and say goodbye to powder coating for good.

Innovative Technology

BLACK STAINLESS FINISH - THE PVD PROCESS

PVD (Physical Vapour Deposition) coating is an innovative offering by Bezdan for stainless steel baluster and frameless railing components in black.

PVD coatings can adhere to several different materials and products and are commonly found in the trend-setting kitchen and bath industries. The process of PVD improves the performance of the finish, resulting in a significant benefit for railing applications. Once the coating is applied, components increase wear and scratch resistance, making its durability far superior to conventional coating methods such as powder coating.

Bezdan selected the PVD process to offer a high quality solution for black railings that eliminate powder coating costs, labor requirements, and time lag issues.

Black Stainless (PVD) vs Powder Coating

BLACK STAINLESS

- ✓ Eye-catching color that reflects light
- ✓ Durable, chip-free, and scratch-resistant
- ✓ Stainless steel strength and versatility
- ✓ Beautiful satin finish
- ✓ Low maintenance and long-lasting

POWDER COATING

- ✗ Prep work, taping
- ✗ Logistics when outsourced
- ✗ Freight & handling added costs
- ✗ Lag time for planning and extra-handling
- ✗ Damage and quality control

Our Products

THE POSSIBILITIES ARE ENDLESS

Creating an impact with color is now easier than ever with Bezdan's comprehensive off-the-shelf solutions for frameless and baluster components. Deliver a high-end result with exceptional design and function using quality products that offer safety and beauty. Complete with a handrail of your choice.

Square Posts

Pre-drilled square post with anchor plate, 34-1/2" and 35-3/4" heights.

Top Mount Brackets & End Cap

Center, corner, level, and stair options in two stem heights.

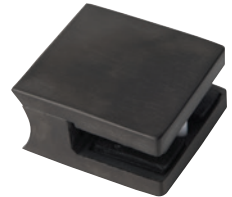

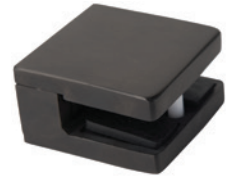

Wall Mount Brackets

Level and stair options that accommodate round, square, and rectangular handrails.

Frameless Glass Railings

Select various standoff sizes, adjustable spigots, and matching glass mount brackets.

Glass and Alignment Clips

Options to affix and align glass panels for a variety of applications.

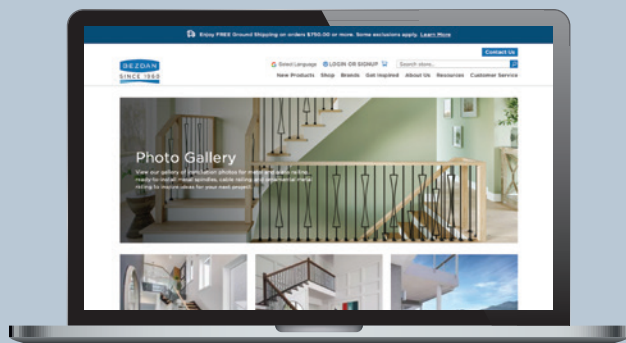

What Our Customers Say

CUSTOMER SATISFACTION

I was initially drawn to the look of the black stainless products. The finish is eye-catching and something I knew my clients would like. I would add that the time savings from planning out logistics for powder coating is a significant benefit. That, and I can trust the durability of PVD products.
