

Full-Service: Design to Installation

We don't just build stairs — we manage the entire process with precision and care:

- Design Consultation
- On-Site Measuring
- In-House Fabrication (CNC precision)
- Professional Installation (Kelowna & area)

Whether it's a new home or a renovation, we ensure your exterior stairs are as functional as they are visually refined.

Exterior Stair Systems

Custom-engineered stairs designed for modern outdoor living

Exterior Stair Materials

Spruce Stringers + Spruce Treads

- Most budget-friendly
- Requires annual staining/sealing
- Natural wood appearance

Spruce Stringers + Composite Trex Treads

- Moderate investment
- Improved moisture resistance
- Reduced tread maintenance

Metal Stringers + Composite Trex Treads

- Premium, long-term solution
- Excellent weather resistance
- Minimal maintenance
- Ideal for BC conditions
